21. Comments on instructor and/or course:

- Dr. Garfin is an amazing professor and incredibly helpful. She helped me a lot in designing my study and revising my literature review. I would not have been able to do it without all of her help and I am very grateful for her. She is also a great teacher and made the lectures clear and enjoyable. I would definitely take her again.
- Dr. Garfin is an incredibly patient and kind professors. She was more than willing to meet with students outside of the classroom as well as take the time to explain the topics in class and challenge us to improve and learn. The class was incredibly motivating and I would like to thank her for the time she put in to help us learn as students and human beings.
- It would be nice to have reminder emails when assignment deadlines are changed. Overall, she was very helpful and I learned a lot from the course.
- Overall the class was an enjoyable experience, never felt as if going to class was a chore. Instead I valued the class and what it had to offer in pursuit of my own research, and ways that I could get the help for this research. Dr. Garfin was available and took her own time out of the day to help her students, and the class was structured in a way that it was not entirely about the grade, but about learning what can help one further their own research.
- Prof. Garfin was always available to assist her students. You can tell she's passionate about the material and success of her students.
- super enjoyable class and I learned a lot considering it was an elective
